Korstylev, B. N. and Kozlov, P. V.
INVESTIGATION OF RELAXATION PROCESSES IN CELLULOSE ESTER FILMS. 2 Nov 62 [14]p. 8 refs.
Order from OTS or SLA $1.60 63-10840

Trans. of Vysokomol[ekulyarnye] Soed[inenlya] (USSR) 1959, v. 1, no. 6, p. 793-798.

DESCRIPTORS: *Cellulose esters, *Films, Surface properties, Relaxation time.

As a result of a short thermal treatment of thin triacetate films at high temperature, a significant improvement in their mechanical properties was found. This treatment is connected with relaxation processes occurring in the films which lead to a decrease in internal stresses and to an increase in the packing density of the molecular chains of the film-forming substance. (Author)
